EXPERIENCE AND PROJECTS

Database Services Analyst

Regina Maria (June 2023 - February 2024)

- Developed and trained an AI assistant (in Azure OpenAI Playground), in direct collaboration with Microsoft, which led to an increase in efficiency and speed of work among Regina Maria employees.
- Deployed the backend part of the AI assistant (from the playground, using GitHub and Git) and customized the website interface (using HTML, CSS and JavaScript/TypeScript concepts) where employees directly use the AI assistant.
- Proficiently manage and maintain customer databases, including updating information and resolving database-related tickets, using Microsoft SQL Server, SysAdmin, Excel, CRM and CMS.

Web Assistant Volunteer

RosPlant (May 2023 - July 2023)

- Achieved an 11% increase in website performance through successful implementation of SEO strategies in WordPress and customize website elements using HTML and CSS.
- Focused on improving and optimizing the company's online performance through effective management of the website and social media platforms, resulting in increased engagement and growth.

Resume Generator

Web application that allows programmers to create customized resumes

React | SCSS | API | Local Storage

- Provides an intuitive and user-friendly interface (especially for programmers) for creating customized resumes in real-time with the ability to easily edit HTML and CSS code to fit unique needs
- With automatic saving feature, each modified version of your resume will be safely stored and ready for future use

Chrome Extension

New Tab Dashboard Chrome Extension

JavaScript | SCSS | Local Storage | Figma | API

- Learned how JSON and Chrome Extensions work
- The project includes features like: modern live gradient background, current temperature + location + representative image for the state of the weather in real time, current time, to do list (add, delete & edit tasks) using Local Storage
