**University of Bucharest** | Bachelor's program: Economic Cybernetics

2022 - 2025

- Relevant Classes | Computer and Algorithms Programming, Web Technologies, Databases, Software Packages

**Frontend Masters** | Practical Guide to Algorithms, Modern SEO, React Performance, Next.js

**Scrimba** | The Frontend Developer Career Path

## SKILLS

---

**Languages** | HTML, SCSS/CSS, JavaScript, SQL, Python, PHP, C

**Frameworks and Libraries** | React.js, Next.js, Tailwind.css, Node.js, Express.js

**Developer Tools** | MySQL, Postman, WordPress, Git, npm

## EXPERIENCE AND PROJECTS

---

### Junior Web Developer

*360 Advertising (June 2024 - present)*

- Developed and optimized responsive websites using HTML, SCSS, JavaScript, NextJS, WordPress and PHP, implementing APIs and custom solutions to meet client-specific needs, ensuring high performance and user experience.
- Enhanced website performance and SEO by improving load times, conducting keyword research, optimizing meta tags and resolving technical issues, leading to increased visibility and rankings on search engines.
- Specialized in WordPress development and maintenance, including WooCommerce integration, server administration, and security practices, while providing ongoing support to ensure website stability and functionality.

### Database Services Analyst

*Regina Maria (June 2023 - February 2024)*

- Developed an AI assistant using Azure OpenAI Playground, in collaboration with Microsoft, resulting in increased efficiency and speed of work among employees.
- Deployed the backend part of the AI assistant (from the playground, using GitHub and Git) and customized the website interface (using JavaScript/TypeScript concepts) where employees directly use the AI assistant.
- Proficiently manage and maintain customer databases, including updating information and resolving database-related tickets, using Microsoft SQL Server, SysAdmin, Excel, CRM and CMS.

### Full-Stack Learning Platform with AI

*Platform that tests and prepares users for technical interviews with the help of AI*

React | Node.js | Express.js | OAI API

- Developed a Node.js server with Express to interact with the OpenAI API, creating a AI technical interviewer (deployed on Render).
- Implemented an AI-driven interview simulation page that provides feedback and explanations for each response.
- Created a page with multiple-choice questions, providing explanations for each question.

### Resume Generator

*Web application that allows programmers to create customized resumes*

React | SCSS | API | Local Storage

- Provides an intuitive and user-friendly interface (especially for programmers) for creating customized resumes in real-time with the ability to easily edit HTML and CSS code to fit unique needs
- With automatic saving feature, each modified version of your resume will be safely stored and ready for future use
